Urphänomen will begin its next group reading of Rudolf Steiner’s book *Occult Science: An Outline* in just over a month.

Ashton and Matt will be using a translation by George and Mary Adams first published in English in 1962 and republished by Steiner Press in 2011.

Though our meetings are in English, participants are welcome to read the original German (published in several editions between 1909 and 1925) or another translation of their choice ([several are available free online](#)).

Our meetings will take place on Zoom every Tuesday beginning March 5th at 9am Pacific Time for approximately one hour. As usual, we will stream our sessions live on the Urphänomen YouTube channel.

If you’d like to participate and don’t already have the Zoom link, email us at urphanomen@outlook.com
